1. The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable in light of applicants arguments and based upon the specification Figures. Even if the repeating of the claimed process were considered prima facie obvious there is no evidence that the results presented, which show only a small incremental increase in thickness for each repetition of the process, could have been predicted from the teachings of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
